

REMARKS

The communication mailed on April 3rd comprises a restriction requirement. The Examiner is restricting the claims as filed into three (3) groups, and also requesting for each group an election of species.

Applicants, through their attorney, hereby elect for further prosecution at this time the group designated by the examiner as Group I, drawn to pharmaceutical combinations classified in class 514, subclass 418. This group includes Claims 1 through 18.

For a single antagonist of at least one receptor selected from VEGFR, PDGFR, FGFR, etc., applicants elect compound T of Claim 10, which is also the compound of Claim 11 and a specific salt form is claimed in Claim 12.

For a single chemotherapeutic agent, applicants elect the compound of Claim 16, which compound is a dual antagonist of epidermal growth factor (EGF) receptor and of human epidermal growth factor of type 2 (ITE type 2) receptor. A salt of such compound is claimed in Claim 17.

For the Examiner's reference, the specific combination has been tested and the results reported starting on page 68 of the specification as filed.

The election is without traverse.
